- having regard to the Trust's Statement of Intent, and the provisions of this policy;
- through best endeavours establish sensible conditions and systems of work for all employees which prevent as far as is reasonably practicable any danger to health and safety. This requires that risk assessments be carried out as appropriate to enable hazards and risks to be identified which will ensure, as far as is reasonably practicable, suitable and sufficient standards of safety are adopted and enforced;
- ensuring that all departments (and areas of management) have suitable policies and procedures in place (including procedures for making and reviewing suitable and sufficient risk assessments) to ensure the health and safety of staff, Students and visitors in their departments;
- providing comprehensive information, instruction, training and supervision, so far as is reasonably practicable, to ensure the health and safety at work of all employees and Students;
- ensuring that all plant and equipment is maintained properly and that none will be used knowingly when it presents any risks to the safety of the staff, Students or visitors or the public, and where necessary appropriate training will be given;
- ensuring the provision of means of access and egress which are safe and without risks to health;
- ensuring safe arrangements are made for the storage, handling and transport of articles and substances;

## 5.2 Safety Organisational Chart

## **6. Roles and Responsibilities**

All those who have responsibility for the use, control and maintenance and/or repair of School premises have a duty to manage the health & safety risk present in the premises.

The extent of the legal duty is determined by the terms of any tenancy agreement or contract that applies, and in the absence of any such agreement, on the degree of control the party has over the premises.

It is recognised that some school buildings may be managed under a third party PFI arrangement, or similar. In these school buildings it is recognised that the PFI Partner Company will probably hold contractual liability for elements of the premises safety management of the relevant buildings. See **Appendix 1**, which describes instances of buildings within TAG where third party organisations exercise an element of health & Safety management responsibility.

- Such responsibilities will normally be described within the relevant contractual agreements.
- Health and safety matters shall be a regular agenda item at formal meetings with third party organisations.

To suitably manage health & safety within Schools it is policy that designated people shall be responsible for specific roles, responsibilities and tasks.

6.1 This policy is largely dependent upon the total co-operation of every person who works in each Academy. The Trust expects all employees to co-operate in ensuring the health and safety of all staff, students and visitors as is their duty under the Health and Safety at Work Act (1974).

6.1.1 The Trust recognises that members of staff are generally not chartered or certificated risk assessors but expects all staff, in fulfilling their legal responsibilities for Health and Safety, to use their experience and knowledge as adults, and their training as teachers and support staff to make reasonable, common-sense decisions about risk assessment and control measures.

### **6.2 The Trust Board**

shall:

- Review and approve the TAG Health & Safety Policy.
- Hold the Chief Executive Officer accountable for the implementation of the policy.

### **6.3 The Chief Executive Officer (CEO)**

- ensure that the Head Teacher takes into account the views and recommendations of the Academy Health and Safety Working Group, where one is in existence;

- ensure that a system is in place to enable contractors and persons hiring any part of the premises to be made aware of, and to conform to, the Academy policy and procedures;
- monitor the implementation of health and safety procedures through the Academy's health and safety management system, and ensure that it is used effectively in the Academy;
- receive a termly report on the progress of the Health and Safety policies and procedures, and an Annual Status Review from the Head Teacher (or representative).

#### 6.5 **Academy Health and Safety Working Group (HSWG)**

6.5.1 The Trust leaves the decision on whether to constitute a formal Health and Safety Working Group to the Head Teacher in each Academy. If none is constituted then the Head Teacher must document the procedures by which all staff may raise Health and Safety concerns.

6.5.2 Where constituted, the Academy Health and Safety Working Group will consist of at least the Head Teacher or his/her nominee, Academy HSM (typically the Facilities Manager), and the nominated local governor for health and safety. **N.B. The responsibilities of the HSM may be discharged by a team of competent persons rather than a single individual. Where this option is exercised in an Academy, the Head Teacher shall ensure that a clear method of working which ensures that gaps are not left between the responsibilities taken on by each team member must be in place, to the satisfaction of the Governing Body.**
